Blindness does come with its share of challenges, though, considering most of the world is designed with sighted people in mind. As a result, living with limited vision means blind people have to find other ways to handle some things most people take for granted. A Piece Of Paper On The Toilet Stall Door Is Totally Unhelpful

14 Common Problems for Blind People You've Never Thought Of

People who are completely blind or have impaired vision usually have a difficult time navigating outside the spaces that they're accustomed to. In fact, physical movement is one of the biggest challenges for blind people, explains World Access for the Blind 1 4. Traveling or merely walking down a crowded street can be challenging.

Challenges That Blind People Face | Healthfully

Our new research shows social distancing is near-impossible for many blind and partially sighted people. Social distancing measures have been particularly felt by people trying to access food. Meanwhile, inaccessible signage and the social pressure to keep to the rules are causing additional stress and worry. RNIB is concerned that some of the challenges blind and partially sighted people have faced in accessing supermarkets may be replicated more widely as services begin to open up again ...

Social distancing having a devastating effect on blind and ...

Blind people can have difficulty interacting with their environment. Because it can become difficult to perceive where one is and to get from one place to another, movement can become restricted, leading to having little contact with the surrounding world. While other senses can be enhanced, this can be offset by a tendency toward over-protection.

Challenges of Being Blind | Healthfully

Leisure: The lack of accessibility for the visually impaired is central to a number of the issues the blind or low visual individuals face. Leisure is another one on the list. There is a limited number of inclusive/accessible activities for the visually impaired, which are as simple as a museum visit.
