Suzuki GSX1400 The 1,402cc air-cooled engine features a 16-valve DOHC head, dual-valve fuel injection and a six-speed gearbox (though it could get by with just five for sure). It ' s designed for low-down torque and smooth midrange rather than top-end power, but it puts out a decent 107bhp, and will still hit the wrong side of 145mph, (if you can hold on).

A handsome machine, the GSX1400 is physically massive - at 228kg (502lb) dry with a 1520mm (60in) wheelbase, it looks every inch the bruising musclebike. Once astride the bike, it still feels extremely wide, but the considerable weight vanishes once on the move. This muscle-bound image is more than skin-deep.

A few years back when I had the GSXR1000 I was lent a GSX1400 by the shop while mine was being serviced. I am sure there are others on here which will love them, personally I didn't, I found it sluggish with vague steering, okay it's an upright naked bike so it's comfy in a straight line below 80mph, anything outside that and you'll be wishing for your sportsbike.

If big is butch then Suzuki ' s GSX1400 is really butch. It ' s not so much a retro clone of bikes gone by but is actually a remnant of times when naked bikes were all the rage – or rather all that was available. Not just because of its big tank, big seat, upright seating and wide handlebar silhouette but also from the way it handles.
