The Design of Future Educational Interfaces provides a new multidisciplinary synthesis of educational interface research. It explains how computer interfaces can be redesigned to better support our ability to produce ideas, think, and solve problems successfully in national priority areas such as science and mathematics.

The Design of Future Educational Interfaces - 1st Edition ...

Education design of the future must have the needs of the student at its heart. In the campus of the future, the environment adapts to how students want to learn, libraries are the most popular social learning hubs on campus, and grassy lawns host impromptu study sessions.

The future of education design | ArchitectureAU

The result was a paper called "Changing Design Education for the 21st Century," where we suggested that Design can use the procedures that allowed other fields (e.g., medicine, law, and management) to restructure their education with special attention to the framework for a family of curricula devised by Computer Science.

The Future of Educational Interior Design – Part 1. The rapid and relentless advancement of technology means that the younger generation are increasingly exposed to a wider and more varied source of information. This has a knock-on effect on the evolution of educational techniques, and, in turn, in educational environments.

The Future of Educational Interior Design – Part 1 | SBID

We are embarking on a serious effort to rethink design education for the 21st century. We started with the multiple thoughtful articles in two special issues of the journal She Ji on design education (Part 1 and Part 2). This inspired us to assemble a team of senior designers from academia and business to serve as a Steering Committee to start ...
